

9th Swiss Corrosion Science Day 2025

24 April 2025, 10:00–16:00

at EPFL, Lausanne

hosted by

EPFL

organized by the

SwissCorr
The Swiss Corrosion Network

The 9th Swiss Corrosion Science Day 2025 is endorsed by the Swiss Society for Surface Treatments SGO-SST

Swiss Corrosion Science Day 2025

The **Swiss Corrosion Network** ties together partners from private and public institutions with the common interest in corrosion by promoting corrosion research and education and encouraging collaboration, knowledge exchange and synergies between academic and industrial actors. A particular goal is to support and promote young scientists and corrosion engineers.

Our members bring together expertise in corrosion science and technology from a broad range of sectors including civil engineering and construction, surface and interface engineering, biomedical devices, nuclear engineering and radioactive waste storage, geothermal energy, micro component and additive manufacturing as well as cultural heritage preservation.

On **24 April 2025**, the 9th Swiss Corrosion Science day will be hosted by **EPFL**.

We aim to bring corrosion groups in Switzerland together for presentation, knowledge exchange, interaction and networking. We cordially invite **scientists and engineers from academia and industry** who are interested and/or confronted with corrosion related issues in Switzerland to join us.

The event will be held on the EPFL campus at the **Starling Hotel Lausanne** in **Saint-Sulpice** (Rte Cantonale 31, 1025 Saint-Sulpice, Switzerland). More information about the exact location will be provided later.

Call for abstracts

We want to feel the pulse of the branch and invite you to present your research project or insights from industry.

Submit your abstract by email to:
scsd2025@epfl.ch

There are no particular formatting requirements for the abstract. Make sure to include a title, list of authors and their affiliation, and an abstract text of max. 500 words. The language for abstracts and presentations is English (with some flexibility).

The Scientific Committee will inform about the acceptance of the abstracts for either the oral presentations or posters by mid March 2025. No submissions of papers are required.

The definitive programme of the Swiss Corrosion Science Day will be published by end of March 2025.

Important dates

Submission of abstracts:

28 February 2025

by email to scsd2025@epfl.ch

Notification of abstract acceptance:

21 March 2025

Registration:

11 April 2025

by email to scsd2025@epfl.ch
